EDUCATION

Proudhadevaraya Institute of Technology

Computer Science Engineering - 7.98   Nov 2020 - June 2024

PROJECTS

Matrimony Web Application   Aug 2023 - Sept 2023

Developed a dynamic matrimony web application enabling users to create profiles, find matches, and communicate through email and text messages.

Tools & Technologies: Django, Python, HTML, CSS, JavaScript, Bootstrap, SQLite
- Implemented user authentication for profile management (create, update, delete)
- Built match selection and withdrawal functionality using Django views and models
- Integrated email and text messaging features for user communication
- Designed a responsive interface with Bootstrap for seamless user experience

Flutter-Based Mobile App for Android, iOS, and Web   May 2024 - july 2024

Developed cross-platform mobile apps using Flutter and Dart for Android, iOS, and Web. Implemented high-performance features with real-time data handling and user authentication.

Tools & Technologies: Flutter, Dart, Firebase, SQLite, Android Studio
- Built responsive layouts and integrated Firebase for user authentication and data syncing
- Used SQLite for local data management and applied state management solutions
- Optimized apps for smooth performance on Android and iOS

SKILLS

Programming Languages: Python, JavaScript, SQL
Web Development: HTML, CSS, Bootstrap, Django
Mobile Development: Flutter, Dart
Databases: SQLite, Firebase, SQL
Version Control: Git, GitHub
Tools & Platforms: PyCharm, Android Studio, VS Code
Others: Responsive Web Design, API Integration, UI/UX Design Principles

CERTIFICATE

Full Stack Development - Igeeks Technologies

Global Fusion E-Certificate : Somnosence(IoT)
